

SUSTAINABLE PROCUREMENT CHARTER

TOWARDS RESPONSIBLE AND SUSTAINABLE GROWTH

Committed to sustainable production and purchasing practices, DIATEX designs technical fabrics and offers solutions to support the transformation of composites.

Our values and commitments are fully aligned with this approach, and we aim to build strong, long-lasting partnerships to carry out projects that are fully consistent with our convictions.

SERVICE PERFORMANCE

To ensure the success of our collaboration, you undertake to deliver compliant products and the correct quantities within the agreed timeframes.

PROTECTION OF WORKERS' HEALTH AND SAFETY

You are committed to ensuring the health and safety of your employees, implementing measures to prevent occupational risks and improve their well-being at work. You must comply, at a minimum, with the laws in force in your country, the Universal Declaration of Human Rights and the ILO conventions of 18 June 1998 prohibiting forced labour and child labour.

COMBATING DISCRIMINATION AND HARASSMENT

You commit to not practising any form of discrimination, to promoting equal opportunities for all, and to banning all physical and psychological harassment. You commit to maintaining ongoing and constructive social dialogue with your employees, thereby fostering a collaborative and positive working environment.

ANTI-CORRUPTION, INFORMATION CONFIDENTIALITY AND SECURITY

You commit to apply a zero-tolerance approach to corruption and unethical practices, including extortion and bribery. You also commit to actively fight counterfeiting within your supply chain and to respect intellectual property and all confidential or sensitive information, notably by adopting strict security measures to safeguard sensitive data linked to our shared operations.

ENVIRONMENTAL RESPONSIBILITY AND PROTECTION

You commit to complying with all applicable laws and regulations and to implementing a continuous improvement approach in environmental protection from the design stage of your products and services. You manage your waste responsibly and promote recycling. You monitor your resource consumption (energy, water, etc.) and take measures to prevent any pollution risks related to your activities.
